Proof that Bones copied/ripped off of my of

first things first, i was a HUUUGGEE fan of Bones for quite a while. i drew NUMEROUS pieces of fan art for them and i tried to draw like them a lot.

i mostly post on Instagram, but in March of 2016, i decided to upload some more fan art of Artman for Bones to see.

the fan art:

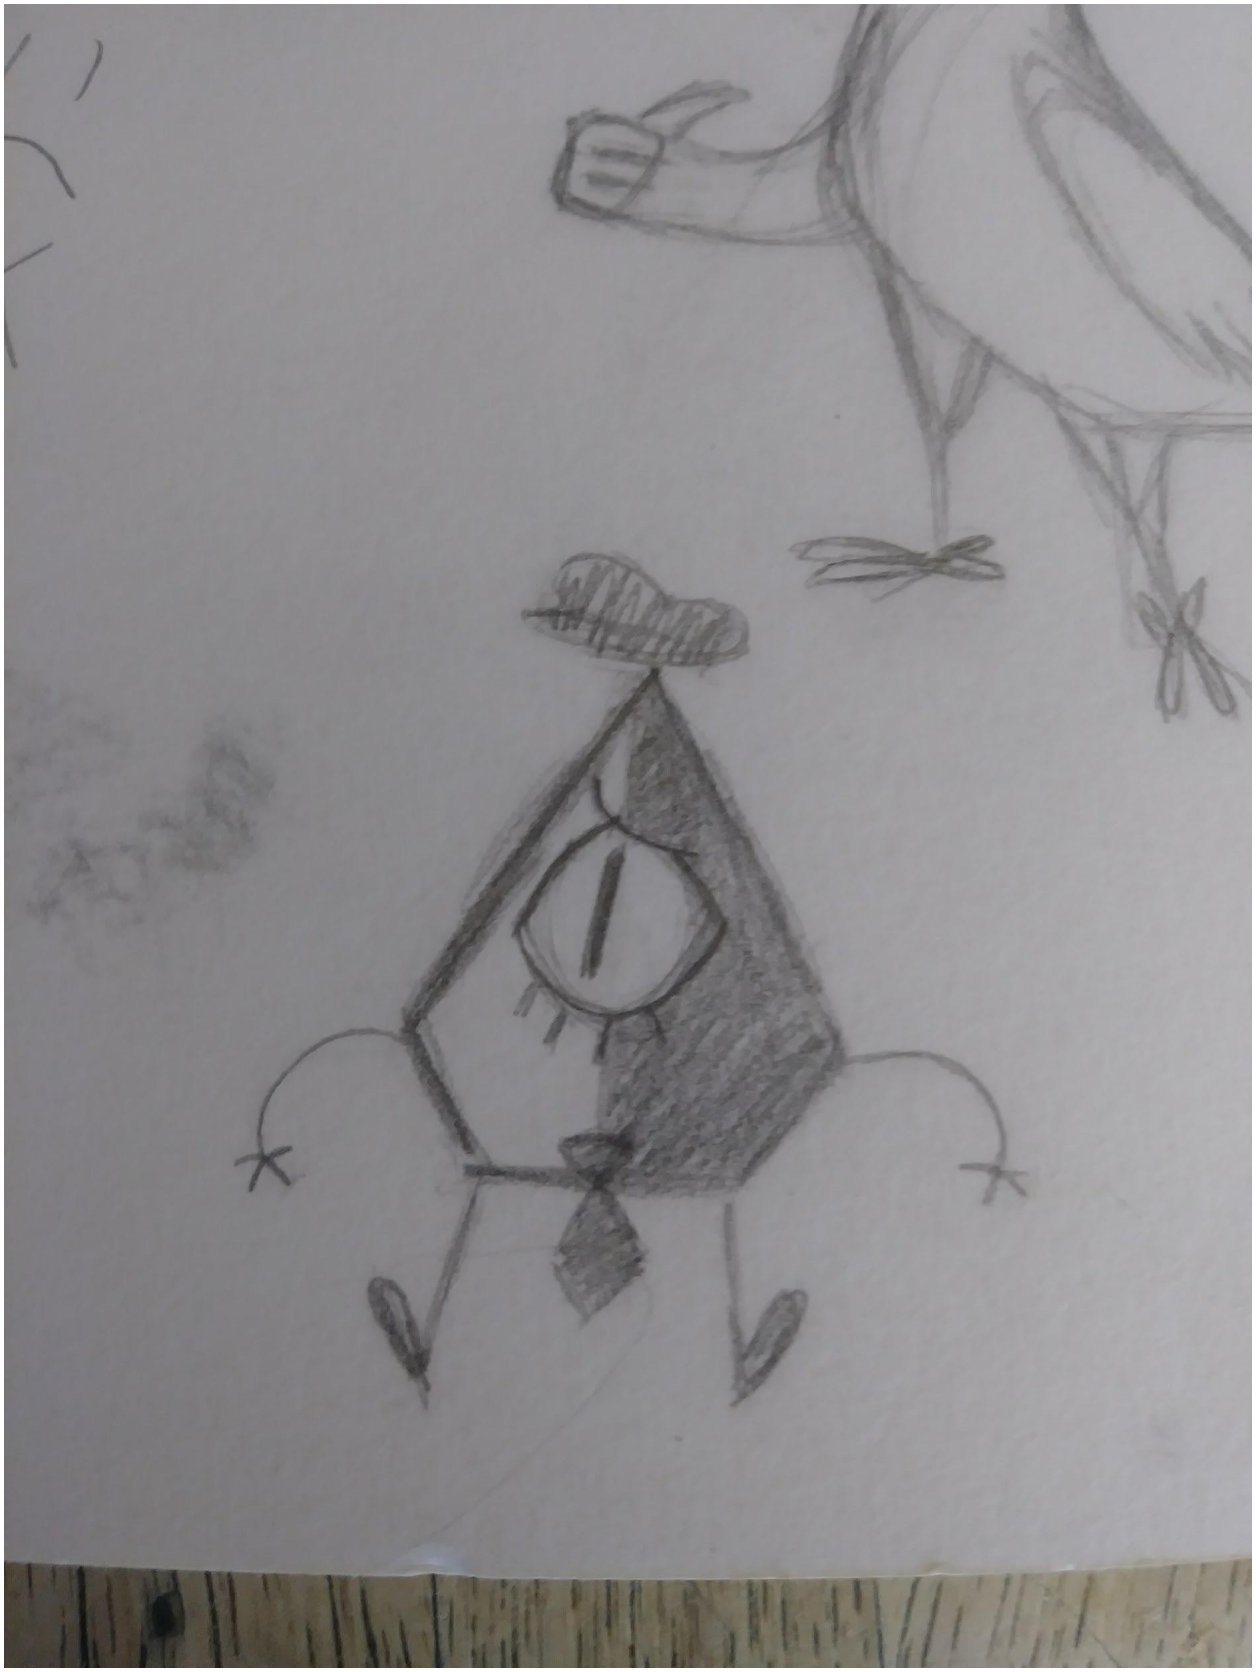
MARCH 1, 2016

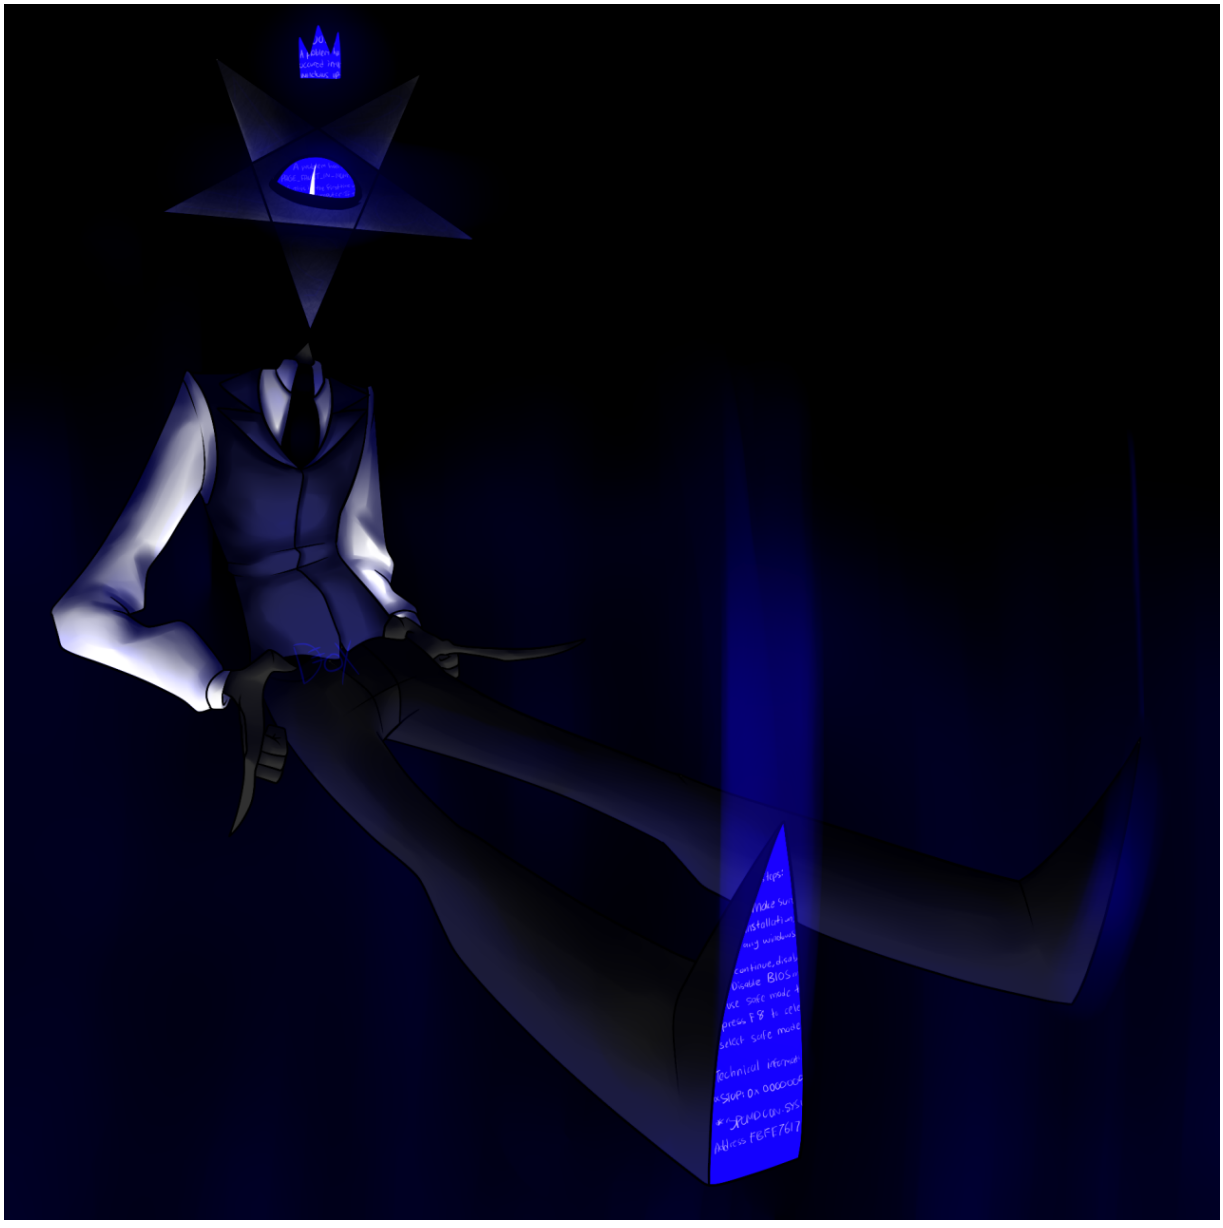
i uploaded this fan art a few days after posting it on Instagram i believe, and since my friends at school were following my Tumblr and i wanted them to see it. i also wanted to post art of my oc, Thompson Jacobs.

this is Thompson:



(at some point he was half black and half blue)

after i had uploaded the artwork, Bones didn't even respond to the fan art and it made me really sad. a day or two later, i was on Tumblr checking out their art and saw this character being introduced:



at first i thought maybe it was just some coincidence but after a while i got nervous or scared that Bones' fans would attack me and accuse me of stealing…
i liked Gig so i drew him next to Thompson

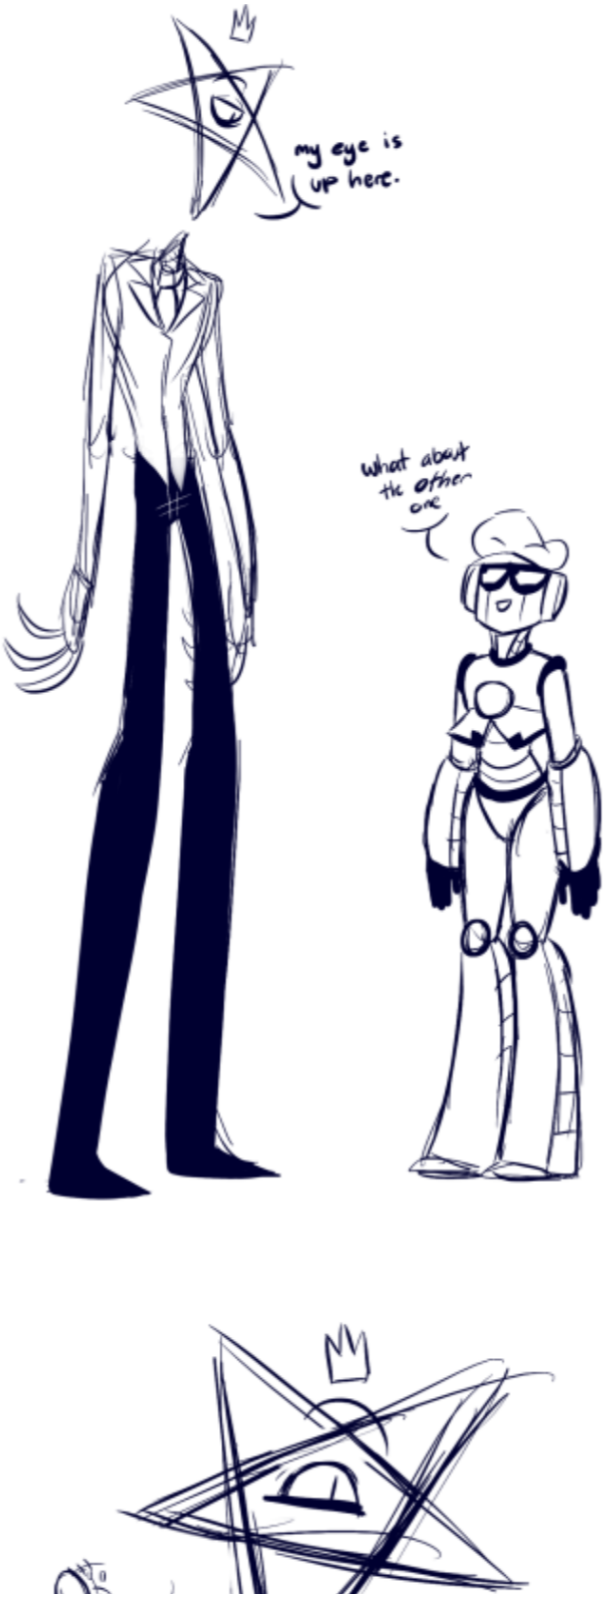
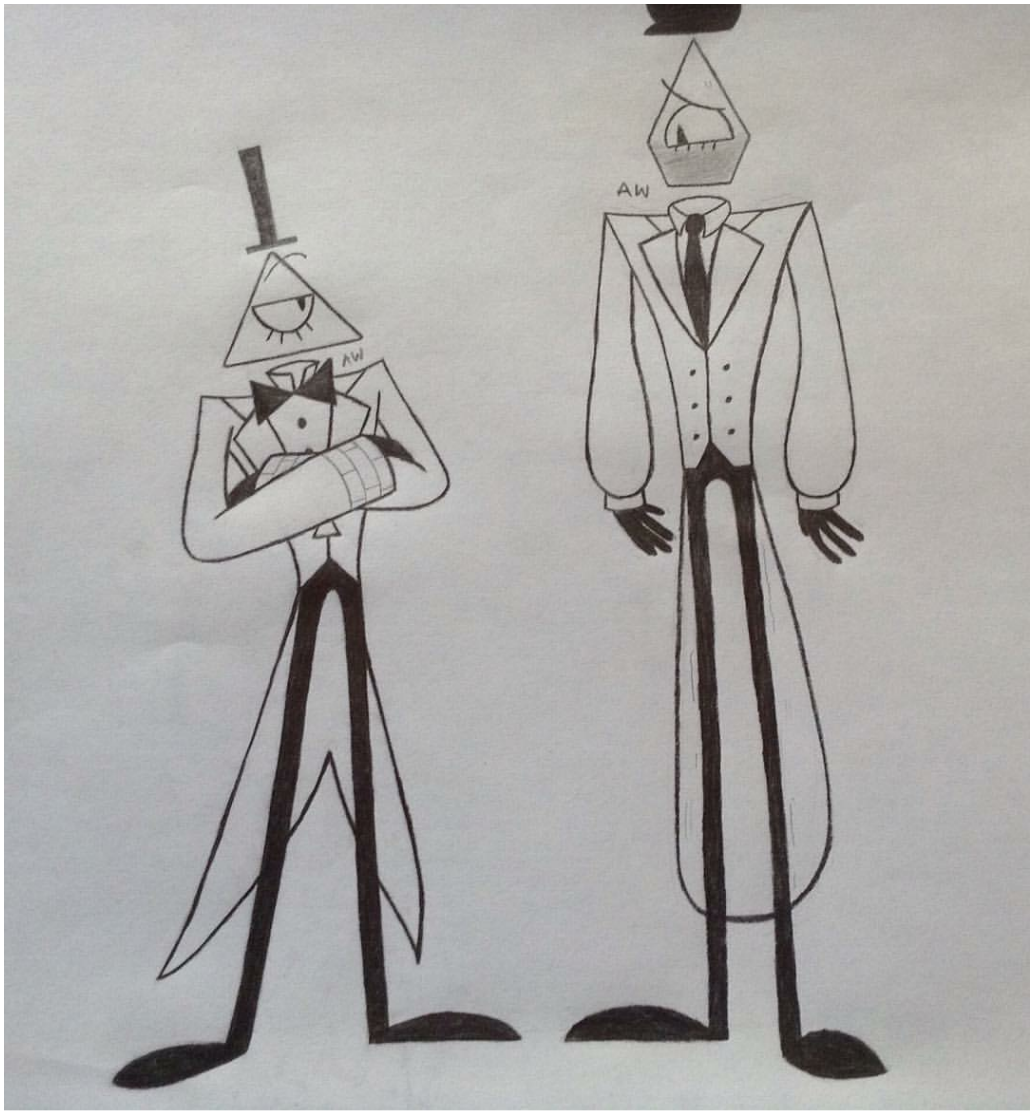
um...

so over the year my oc’s design has changed a bit. i even changed his colors and clothes and stuff. i really miss his old design honestly. but i like his new design too, i guess. this page of Gig and Thompson was a couple of pages after the fan art of Artman.

they even made this sketch:



after i had made this sketch and uploaded it on Tumblr:



its taking me a lot of confidence to share this but i hope its useful

here’s what Thompson my oc looks like now since he’s gone through a few designs:

(there's even a pentagon included on his head. Thompson is a pentagon…)

but hey, free art i guess right?
